

Remarks

Claims 1, 20 and 21 are amended. Claims 1 to 25 are pending in this application of which claims 1, 5, 9, 17, 19, 20 and 21 are in independent form.

Applicants thank Examiner Spector for the telephone interview held on July 14, 2005 with the undersigned applicants' attorney. In the telephone interview, it was mutually agreed that claim 1 should be amended in line 14 thereof to insert the term -- two-dimensional -- between the words "the" and "position" to emphasize that the optical end element is moved in two dimensions in the plane parallel to the viewing field of the user. Claims 20 and 21 have been amended herein in the same manner.

The application should now be in condition for allowance.

Respectfully submitted,

Walter Ottesen
